Public Affairs / Govt Relations

November 2016

Walmart's Evolution

Global Responsibility

Sustainability

- Create Zero waste
- Lead in energy and climate
- Sell products that sustain people and the environment

Community

- Walmart has donated \$1 billion worth of food in two years
- Support disaster preparedness and response

Opportunity

- Spending \$2.7 billion on associate wages
- Hired 150,000 plus veterans since 2013
- Increase U.S. Manufacturing

Investing in American Jobs

\$250 billion in new product over 10 years means 250,000 new manufacturing jobs for America and the middle class

Why it Matters.....

- More than any other project, US customers indicate they care that products are made domestically
- Better inventory management and quicker response to customer

Walmart

- 5,300 Retail Units
- 1.5 million US associates
- Average FT Hourly wage is \$13.69
- Spent \$34.8 billion with Illinois suppliers. 167,467 jobs.

Accelerating U.S. Manufacturing

Buy more USA products that our customers want from both new and existing US suppliers. Companies like Korona Candle, Kent Bicycle, Core Brewing, and Frey Farms.

“Mom” is Walmart customer

- To Mom Made in USA is second only to price
- 85% think it's very important we are selling these products
- Mom believes US made products equal higher quality

Facilitating American Jobs

This is good for business, lowers transportation costs, creates new jobs, and makes us more responsive to customers

Challenges

- Info on where to locate
- Supply Chain
- Labor availability
- Access to financing
- Regulatory issues
